charge for the test or the rates of payment which the State uses for purchasing such services, whichever is the lesser amount.

(2) If the bill or request for payment indicates that the test was performed by an independent laboratory, the amount of reimbursement will not exceed the billed cost of the independent laboratory or the rate of payment which the State uses for purchasing such services, whichever is the lesser amount. A nominal payment may be made to the physician for collecting, handling and shipping a specimen to the laboratory if the physician bills for such a service. The total reimbursement may not exceed the rate of payment which the State uses for purchasing such services.

(c) The State will assure that it can support the rate of payment it uses. The State shall also be responsible for monitoring and overseeing the rate of payment it uses to ensure compliance with paragraphs (a) and (b) of this section.

§ 404.1519m Diagnostic tests or procedures.

We will request the results of any diagnostic tests or procedures that have been performed as part of a workup by your treating source or other medical source and will use the results to help us evaluate impairment severity or prognosis. However, we will not order diagnostic tests or procedures that involve significant risk to you, such as myelograms, arteriograms, or cardiac catheterizations for the evaluation of disability under the Social Security program. A State agency medical consultant must approve the ordering of any diagnostic test or procedure when there is a chance it may involve significant risk. The responsibility for deciding whether to perform the examination rests with the medical source designated to perform the consultative examination.

20 CFR Ch. III (4–1–12 Edition)

§ 404.1519n Informing the medical source of examination scheduling, report content, and signature requirements.

The medical sources who perform consultative examinations will have a good understanding of our disability programs and their evidentiary requirements. They will be made fully aware of their responsibilities and obligations regarding confidentiality as described in § 401.105(e). We will fully inform medical sources who perform consultative examinations at the time we first contact them, and at subsequent appropriate intervals, of the following obligations:

(a) *Scheduling.* In scheduling full consultative examinations, sufficient time should be allowed to permit the medical source to take a case history and perform the examination, including any needed tests. The following minimum scheduling intervals (*i.e.*, time set aside for the individual, not the actual duration of the consultative examination) should be used.

(1) Comprehensive general medical examination—at least 30 minutes;

(2) Comprehensive musculoskeletal or neurological examination—at least 20 minutes;

(3) Comprehensive psychiatric examination—at least 40 minutes;

(4) Psychological examination—at least 60 minutes (Additional time may be required depending on types of psychological tests administered); and

(5) All others—at least 30 minutes, or in accordance with accepted medical practices.

We recognize that actual practice will dictate that some examinations may require longer scheduling intervals depending on the circumstances in a particular situation. We also recognize that these minimum intervals may have to be adjusted to allow for those claimants who do not attend their scheduled examination. The purpose of these minimum scheduling timeframes is to ensure that such examinations are complete and that sufficient time is made available to obtain the information needed to make an accurate determination in your case. State agencies will monitor the scheduling of examinations (through their normal consultative examination oversight activities)
